### Tamponbinde

Die Kombination von Tampon und Binde bietet die Möglichkeit, längere Zeit ohne Wechsel des Blutungsauffängers auszukommen. Damit werden die Wechselzeiten verlängert, was besonders bei starken Blutungen sinnvoll ist. Die bisherige Kombination von Tampon und Binde hatte zum Nachteil, daß die Anwenderinnen nach Entfernen der Binde im Blut nach dem Faden des Tampons suchen mußten, um dieses dann entfernen zu können. Mit der Tamponbinde wird beides, Tampon und Binde, problemlos gelegt und entfernt.

Mit freundlichen Grüßen

Dr. Büttner

### Anmeldung von Schutzansprüchen

Geschützt werden soll die Kombination aus Tampon und Binde in einer Einheit. Damit wird erstmalig möglich, beide Teile in einem zu benutzen und ohne größere Aufwendungen auch zu entfernen. Hier lag bisher das Problem bei kombinierter Anwendung.

Mit freundlichen Grüßen

Dr. Büttner

c/o Mr. Strutzky

Dorsten, April 26, 1994

Sanitary Tampon Pad

By combining a tampon with a sanitary pad, the product that absorbs the blood need not be changed for longer periods of time. Thus, the time between changes is prolonged, which is especially useful during times of heavy flow. The previously available combination of a tampon and a sanitary pad had the drawback that, after removal of the sanitary pad, the women had to search for the withdrawal cord in the blood in order to be able to remove the tampon. With the sanitary tampon pad, both the tampon and the sanitary pad can be easily placed and removed.

Sincerely yours,

Dr. Büttner [initials]

c/o Mr. Strutzky

Dorsten, April 26, 1994

**Application for Protection Claims**

Protection is sought for the combination of a tampon and a sanitary pad comprised within one single unit. This product will make it possible for the first time to use and to remove both components at the same time. Thus, the previous problem encountered when using a combination product is hereby eliminated.

Sincerely yours,

Dr. Büttner [initials]
